Ring wholesale supports customization

MULTIPLE SCREEN SIZES CAN BE CUSTOMIZED

MOBILE WIFI REMOTE OPERATION

OPEN THE SOFTWARE TO PLAY THE CONTENT YOU WANT TO PLAY

Using the WiFi wireless operating system, plug in and use, abandoning the complex operation and debugging methods of traditional electronic screens. With just one phone, you can achieve complete control of the screen, and various material templates are provided for direct editing of text, background images, etc. With just one click upload and replacement, the electronic screen can be replaced and the playback screen can be easily replaced, saving you expensive design material costs and complex operation processes. Applicable environment: indoor and outdoor hanging, storefront signage, bar counter placement, store streets, performing arts halls, shopping malls, exhibition halls, outdoor places, etc

Circular screen
New Trend of Shop Recruitment

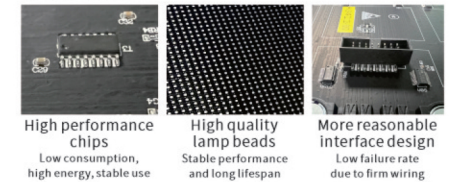

New intelligent electronic screen

- High definition pixels
- Minimalist operation
- Plug in and use
- Mobile phone control

CHANGE AS MANY TEMPLATES AS YOU WANT

DETAILS CAN WITHSTAND TESTING
